PROJECTS

Password Generator
- Developed a random password generator. The generator can generate passwords of any length between 1 and 20 characters.
- The generator allows users to choose whether to include uppercase, lowercase and symbols in the password.
- Used HTML, CSS and JS.

Arduino-based Project
- Designed and implemented an Arduino-based Anti-Sleep alarm for drivers who drive late in the night and fall asleep.

CODING PROFILES

- Solved over 110+ problems in Geeks for Geeks. Proficient in Data structures and algorithms.
- https://auth.geeksforgeeks.org/user/its_akash_nagar
